

Co-ordinated support for

Drug Action Teams

How our surveys can help you

Schools Health Education Unit (SHEU)

DATs working with LEAs and Health Authorities are surveying their schools using our questionnaire* to identify their priorities

Areas include: Brent, Bromley, Cambridgeshire, Camden, Cumbria, Gateshead, Guernsey P.A.T., Hertfordshire, Merton, Milton Kynes, South Tyneside and Worcestershire

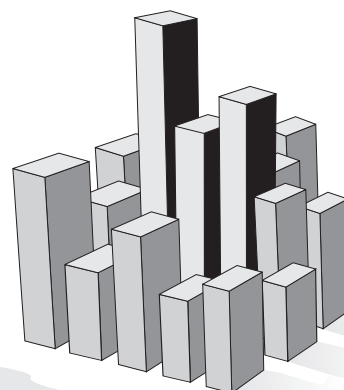

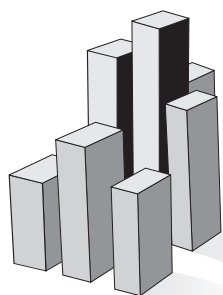

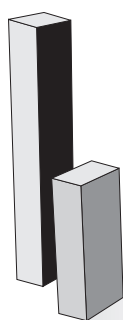

*The Health Related Behaviour Questionnaire (HRBQ) is being used by schools across the UK. It has evolved since 1977 and has become the leading standardised questionnaire in primary and secondary schools.

The HRBQ:

- ✓ provides DAT co-ordinators with accurate information from their school community
- ✓ provides baseline data which will contribute to monitoring and evaluation
- ✓ sets drug experience within the context of their wider lifestyle
- ✓ enables analysis of the connections between drug experience and other behaviours
- ✓ completed by over 680,000 pupils, comparative samples available

Themes within the questionnaire include: Citizenship; Drugs, alcohol and tobacco; Emotional health & wellbeing (including bullying); Healthy eating; Physical activity; Safety; Sex and relationships; Recognising success.

HRBQ surveys can be small or large e.g. From 1 primary and 1 secondary school to 50 primary and 15 secondary schools

From small to large...
your HRBQ surveys will support
the development of your local drug strategy in response
to the National Drug Strategy
